

**RELEASE****Pittcon 2021 Conference & Expo is going Virtual!**

Pittcon 2021 attendees and exhibitors – the very people who comprise the international science community – will have access to the same dynamic exposition and technical programming made available at the 71 in-person Pittcons prior. This installment of Pittcon may look different, and it will be because it is our sole mission to offer all the benefits associated with a face-to-face Pittcon, tailored to a virtual environment.

The platform that will be used is LabRoots, which has been heralded as the best of the best virtual event platforms on the market. [Take a tour of LabRoots Virtual Platform](#) to see why they're the leading producer of scientific virtual events.

**Abstract submissions for (contributed) Oral and Poster presentations**

Deadline: January 18, 2021

Technical presentations in all areas of analytic chemistry and applied spectroscopy are being accepted.

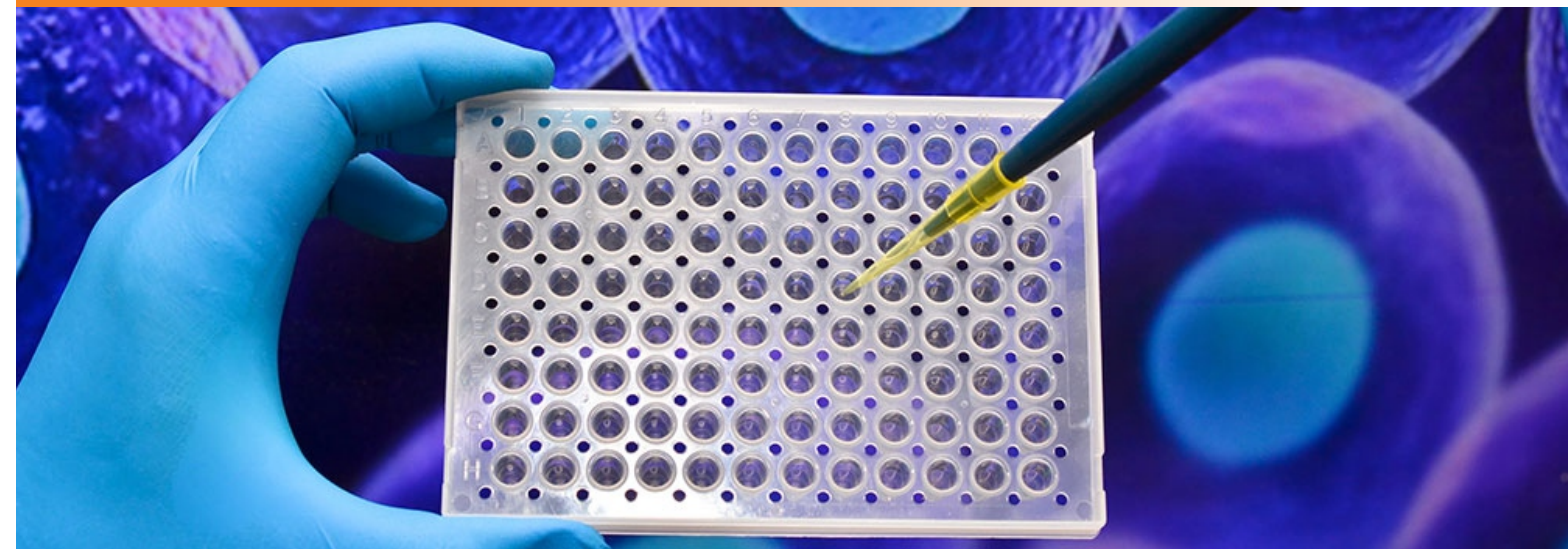

**Virtual Undergraduate Poster Session**

Undergraduate students who are attending Pittcon 2021 are invited to present a poster describing their research in a special session dedicated to such presentations by students who have not yet completed their B.S. or B.A. degree. The purpose of this session is to provide a forum in which undergraduate students can share research presentations with their peers and to encourage networking amongst undergraduate students. An advisor must be listed on the abstract in order to be considered an undergraduate abstract.

**WHEN**

Short Courses	Monday (March 1) – Friday (March 19)
Technical Program	Monday (March 8) – Friday (March 12)
Exposition	Monday (March 8) – Wednesday (March 10)
Employment Bureau	Monday (March 8) – Friday (March 2)

**The results are in...Pittcon 2021 is going virtual!**

**A new look for a new world, providing the same connections that matter**

Science is a dynamic and constantly evolving discipline. Every day, all over the world, scientists are making new discoveries; formulating new medicines to enhance the quality of life and solving global environmental, energy and food related challenges.

**March 6 – 12, 2021**  
**Virtual Event**

Pittcon, a vital resource for knowledge, happens yearly to help keep you informed of, connected to and up-to-date on these significant ongoing findings and new instrumentation.
