

RELEASE**Milestone ETHOS UP****High Performance Microwave Digestion System**

The new ETHOS™ UP is simply the most advanced yet easy to use system for microwave sample preparation ever manufactured. It offers a perfect integration between microwave hardware, user interface, digestion sensors and pressure vessels.

Productivity UP / Simplicity UP / Safety UP

The ETHOS UP™ fully embodies Milestone's philosophy in microwave sample preparation. Specifically designed for closed vessel microwave acid digestion, it offers productivity, safety, ease of use, connectivity, expertise and application flexibility.

Featuring a comprehensive choice of accessories, ETHOS UP microwave digestion system encompasses Milestone's visionary concept of "Total Microwave Sample Preparation" offering a complete first-class solution for microwave solvent extraction, high-temperature fusion, vacuum evaporation and even organic and inorganic synthesis or protein hydrolysis.

- **Safety and reliability.** Best microwave hardware, temperature and pressure sensors
- **Performance and throughput.** easyTEMP temperature control and advanced rotor technology
- **Ease of use and control.** EasyCONTROL operating software
- **Expertise and know-how.** 30-years experience at your lab with the Milestone Connect
- **Flexibility.** Rotor-based digestion system for hundreds of applications.

- **The Largest Stainless-Steel Microwave Cavity**
- **Pressure-Responsive Door for Max Safety**
- **The Most Powerful Microwave Digester**
- **Live Monitoring with Milestone SafeVIEW**

HIGHEST THROUGHPUT ROTORS

NO METHOD DEVELOPMENT

REMOTE SYSTEM CONTROL

ENHANCED SAFETY FEATURES

JUST WHEN YOU THINK METALS PREP TECHNOLOGY CANT GET ANY BETTER, IT DOES.

The Milestone Ethos UP isnt just intelligent, its the most powerful microwave digestion system on the market today.

Featuring the highest throughput rotors, stainless steel construction and patented vent-and-reseal technology, the Ethos UP ensures market-leading safety and productivity.

Plus, new Milestone Connect offers remote system control, 24/7 technical support and direct access to a comprehensive library of content developed especially for lab professionals.

See how Ethos UP can help you work smarter.
