

PERIODICALS & WEBSITES

American Laboratory

American Laboratory® is a platform that addresses basic research, clinical diagnostics, drug discovery, environmental, food and beverage, forensics and other markets, and combines in-depth articles, news, and video to deliver the latest advances in their fields.

LABTips – Particle Characterization and Testing: Characterization is critical in a vast number of industries. Regardless of application, knowing the size and shape of particles allows manufacturers to control product effectiveness and maintain customer satisfaction. [Read more](#)

LCGC

Chromatographyonline delivers practical, nuts-and-bolts information to help scientists and lab managers become more proficient in the use of chromatographic techniques and instrumentation, thereby making laboratories more productive and businesses around the world more successful. **Article: The Role of Two-Dimensional Gas Chromatography in Arson Investigations.** Boegelsack, N. & O'Sullivan, G. from Mount Royal University in Calgary, CA, created a GC×GC workflow to analyse ignitable liquid residues in arson investigations. [Read more](#)

Scientia Chromatographica

Scientia Chromatographica is the first and to date the only Latin American scientific journal dedicated exclusively to Chromatographic and Related Techniques. With a highly qualified and internationally recognized Editorial Board, it covers all chromatography topics in all their formats, in addition to discussing related topics such as “The Pillars of Chromatography”, Quality Management, Troubleshooting, Hyphenation (GC-MS, LC-MS, SPE-LC-MS/MS) and others. It also provides columns containing general information, such as: calendar, meeting report, bookstore, etc. [Read more](#)

Select Science

SelectScience® has transformed global scientific communications and digital marketing over the last 23 years. Informing scientists about the best products and applications. Connecting manufacturers with their customers to develop, promote and sell technologies promotes scientists and their work, accelerating the communication of successful science. Scientists can make better decisions using independent, expert information and gain easy access to manufacturers. SelectScience® informs the global community through Editorial, Features, Video and Webinar programs. [Read more](#)

Spectroscopy

With the Spectroscopy journal, scientists, technicians, and lab managers gain proficiency through unbiased, peer-reviewed technical articles, trusted troubleshooting advice, and best-practice application solutions.

Article: A Simple Introduction to Raman Spectral Identification of Organic Materials By Fran Adar. Innovative database search technology can help Raman spectroscopists identify molecular vibrations; here, we show how to use these tools more effectively. [Read more](#)
