

RELEASE**SelectScience® Pioneers online Communication and Promotes Scientific Success**

SelectScience® promotes scientists and their work, accelerating the communication of successful science. Through trusted lab product reviews, virtual events, thought-leading webinars, features on hot scientific topics, eBooks and more, independent online publisher SelectScience® provides scientists across the world with vital information about the best products and techniques to use in their work.

Some recent contributions from SelecScience® to the scientific community**Editorial Articles*****Marine research sails into the future with UV-Vis spectroscopy***

Dr. Sarah Kingston, Assistant Professor of Oceanography and Chief Scientist for Marine Biodiversity and Conservation at Sea Education Association, discusses the use of UV-Vis spectroscopy in her research and the future of molecular marine research. In the hands of researchers like Dr. Sarah Kingston, the applications of UV-Vis spectroscopy in oceanography and marine science is making waves – both literally and figuratively. This article describes how she is employing UV-Vis spectroscopy to explore and understand the mysteries of our planet's oceans. Access [here](#)

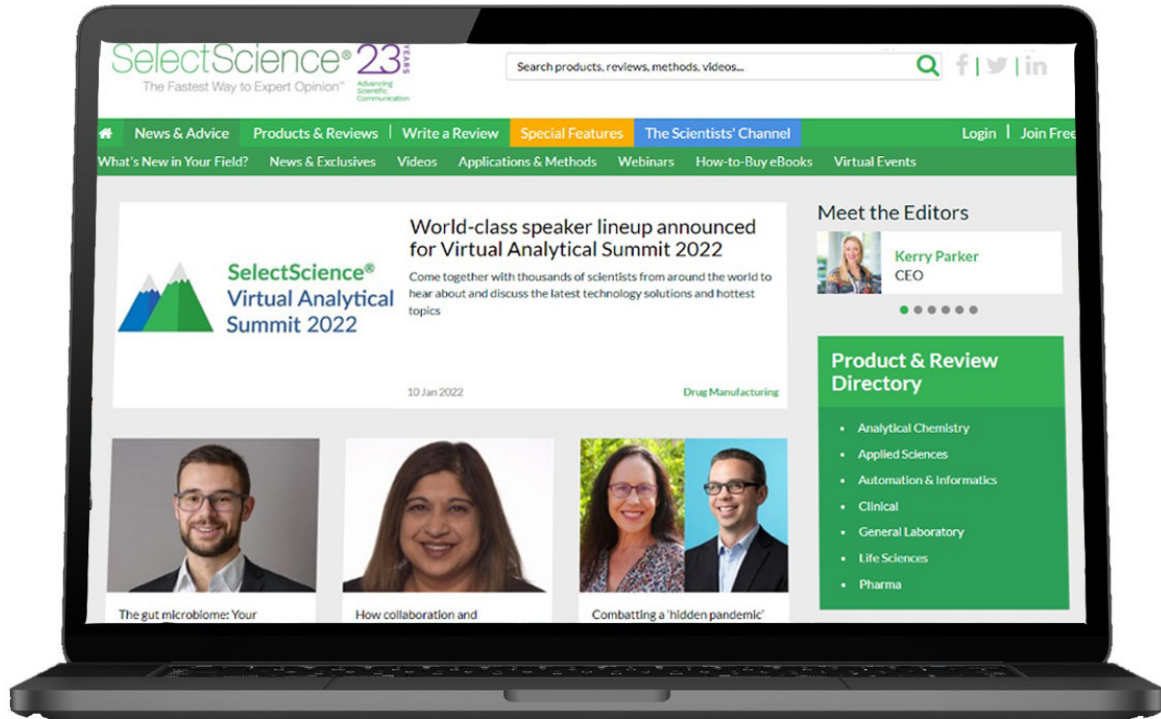

How to achieve the Lab of the Future with expert insights from industry, academia, and manufacturing

In this article, three experts across biopharma, academia, and manufacturing provide a comprehensive overview of the LoF concept, exploring its potential impact on various sectors, the challenges involved, and the critical steps that labs must take to align themselves with this transformative vision. Access [here](#)

Webinar***An industry perspective of the current regulatory landscape for nitrosamines***

In this webinar, Lance Smallshaw, Head of Compendial Affairs at UCB Pharma S.A. (Belgium), provides an overview of the regulatory landscape today including recent significant updates related to nitrosamines in human medicines. This webinar also offers a perspective on the differences that exist between the health authorities, and explains how there is a continued need from the industry, to do more in order to harmonize these regional differences.
