

RELEASE**SelectScience® Pioneers online Communication and Promotes Scientific Success**

SelectScience® promotes scientists and their work, accelerating the communication of successful science. Through trusted lab product reviews, virtual events, thought-leading webinars, features on hot scientific topics, eBooks and more, independent online publisher SelectScience® provides scientists across the world with vital information about the best products and techniques to use in their work.

Some recent contributions from SelectScience® to the scientific community**News / Environmental*****Real-time VOC analysis offers new clues in search for life beyond Earth***

Discover how groundbreaking research on volatile organic compounds (VOCs) links extreme earth environments with outer space, uncovering unexpected connections across various scientific disciplines. Access [here](#)

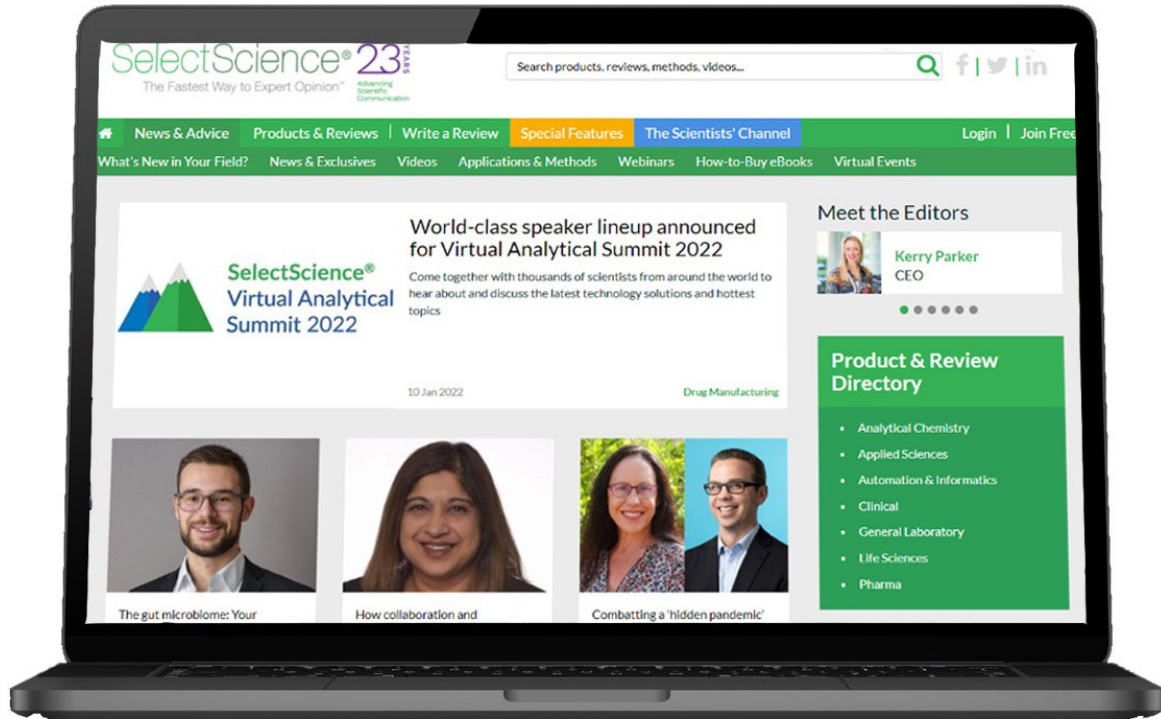

News / Drug Discovery & Development***Sustainability in the lab: Progress, opportunities, and the path forward***

Hear insights on how to reduce your environmental footprint while maintaining research quality, from eliminating single-use plastics to implementing lab-wide initiatives. In the past, life science laboratories have operated with a sustainability blind spot, generating substantial waste (particularly from single-use plastics) and energy consumption while largely avoiding the same level of scrutiny faced by other industries. This relative immunity has stemmed from the critical nature of research, driving scientific discovery and advancing human health. Access [here](#)

Webinar***Maximize efficiency in fat and oil extraction for quality control and compliance***

Laboratories often face significant challenges when determining the properties of fats and oils, such as long extraction times and inaccurate composition analysis. In this educational webinar, Corey Letizio from VELP Scientifica will present practical solutions to help laboratories overcome these hurdles across the environmental, agricultural, and chemical sectors. Top tips and guidance on how to improve accuracy and efficiency by streamlining fat and oil extractions will also be presented. Access [here](#)

SelectScience® is the leading independent online publisher connecting scientists to the best laboratory products and applications.

- Working with Scientists to Make the Future Healthier.
- Informing scientists about the best products and applications.
- Connecting manufacturers with their customers to develop, promote and sell technologies.
