

PERIODICALS & WEBSITES

American Laboratory® is a platform that addresses basic research, clinical diagnostics, drug discovery, environmental, food and beverage, forensics and other markets, and combines in-depth articles, news, and video to deliver the latest advances in their fields.

Study: *NGS Should Be Go-to Technology on Day Zero of the Next Pandemic.* By Michelle Taylor, Editor-in-Chief. While the world was eventually able to get COVID-19 under control, it was obvious better planning was needed in the case of another—likely—pandemic. [Access here](#)

LCGC

Chromatographyonline delivers practical, nuts-and-bolts information to help scientists and lab managers become more proficient in the use of chromatographic techniques and instrumentation. **Article:** *Challenges and Solutions in Oligonucleotide Analysis, Part I: An Overview of Liquid Chromatography Methods and Applications.* By Martin Gilar; Dwight R. Stoll. This article explores advanced oligonucleotide analysis techniques, including chromatography methods for therapeutic RNA, siRNA, and mRNA, enhancing nucleic acid research. [Read more](#)

Scientia Chromatographica

Scientia Chromatographica is the first and to date the only Latin American scientific journal dedicated exclusively to Chromatographic and Related Techniques. With a highly qualified and internationally recognized Editorial Board, it covers all chromatography topics in all their formats, in addition to discussing related topics such as “The Pillars of Chromatography”, Quality Management, Troubleshooting, Hyphenation (GC-MS, LC-MS, SPE-LC-MS/MS) and others. It also provides columns containing general information, such as: calendar, meeting report, bookstore, etc. [Read more](#) 

Select Science

SelectScience® has transformed global scientific communications and digital marketing. It informs scientists about the best products and applications, connects manufacturers with their customers to develop, promote, and sell technologies, and promotes scientists and their work. This accelerates the communication of successful science. Scientists can make better decisions using independent expert information and easily access manufacturers. SelectScience® informs the global scientific community through editorial, feature, video, and webinar programs. [Read more](#)

Spectroscopy

With the *Spectroscopy* journal, scientists, technicians, and lab managers gain proficiency through unbiased, peer-reviewed technical articles, trusted troubleshooting advice, and best-practice application solutions. **Article:** *New Infrared Device Measures Blood Sugar Without a Prick.* By Jerome Workman, Jr. Researchers have developed a miniature non-invasive blood glucose monitoring system using NIR technology. The compact, low-cost device uses infrared light to measure sugar levels through the fingertip, offering a painless alternative to traditional finger-prick tests. [Read more](#)
