

PERIODICALS & WEBSITES

American Laboratory[®] is a platform that addresses basic research, clinical diagnostics, drug discovery, environmental, food and beverage, forensics and other markets, and combines in-depth articles, news, and video to deliver the latest advances in their fields.

Article: *Microplastics, Nanoplastics 5x More Present in Atmosphere than Thought.* A team from the Institute of Earth Environment at the Chinese Academy of Sciences developed a semi-automated microanalytical method to quantify atmospheric plastic particles and their cross-compartmental fluxes in two major Chinese megacities: Guangzhou and Xi'an. [Access here](#)

LCGC

Chromatographyonline delivers practical, nuts-and-bolts information to help scientists and lab managers become more proficient in the use of chromatographic techniques and instrumentation. **Article: *RP-HPLC Fractionation of Tarantula Venom Yields Neuroactive Compounds with Therapeutic Potential.*** By John Chasse. Researchers separated tarantula venom into eleven fractions, revealing neuroactive compounds that mimic FDA-approved drugs, highlighting spider venom's potential for neurological disorder therapeutics through chromatographic purification. [Read more](#)

Scientia Chromatographica

Scientia Chromatographica is the first and to date the only Latin American scientific journal dedicated exclusively to Chromatographic and Related Techniques. With a highly qualified and internationally recognized Editorial Board, it covers all chromatography topics in all their formats, in addition to discussing related topics such as “The Pillars of Chromatography”, Quality Management, Troubleshooting, Hyphenation (GC-MS, LC-MS, SPE-LC-MS/MS) and others. It also provides columns containing general information, such as: calendar, meeting report, bookstore, etc. [Read more](#) 

Select Science

SelectScience[®] has transformed global scientific communications and digital marketing. It informs scientists about the best products and applications, connects manufacturers with their customers to develop, promote, and sell technologies, and promotes scientists and their work. This accelerates the communication of successful science. Scientists can make better decisions using independent expert information and easily access manufacturers. SelectScience[®] informs the global scientific community through editorial, feature, video, and webinar programs. [Read more](#)

Spectroscopy

With the *Spectroscopy* journal, scientists, technicians, and lab managers gain proficiency through unbiased, peer-reviewed technical articles, trusted troubleshooting advice, and best-practice application solutions. **Article: *Artificial Intelligence as the Next Layer of Chemometrics.*** By Jerome Workman, Jr. AI methods can reduce reliance on manual preprocessing while still indicating which spectral regions influence predictions. AI is best viewed as the next developmental layer of chemometrics, not as a competing discipline.
