

PERIODICALS & WEBSITES

American Laboratory® is a platform that addresses basic research, clinical diagnostics, drug discovery, environmental, food and beverage, forensics and other markets, and combines in-depth articles, news, and video to deliver the latest advances in their fields.

Featured Article: *Why Raman is Ideal for Advancing Battery Research*. Because Raman is non-destructive and requires minimal sample preparation, it enables scientists to characterize electrode materials, electrolytes and solid-state components without significantly altering the sample, making it particularly valuable throughout the battery development lifecycle. [Access here](#)

LCGC

Chromatographyonline delivers practical, nuts-and-bolts information to help scientists and lab managers become more proficient in the use of chromatographic techniques and instrumentation. **Article:** *Separation Science in 2025–2026*. The Products Shaping Analytical Workflows. A 2026 snapshot of chromatography, mass spectrometry, software, and laboratory tools advancing automation, compliance, sensitivity, and workflow efficiency. [Access here](#)

Scientia Chromatographica

Scientia Chromatographica is the first and to date the only Latin American scientific journal dedicated exclusively to Chromatographic and Related Techniques. With a highly qualified and internationally recognized Editorial Board, it covers all chromatography topics in all their formats, in addition to discussing related topics such as “The Pillars of Chromatography”, Quality Management, Troubleshooting, Hyphenation (GC-MS, LC-MS, SPE-LC-MS/MS) and others. It also provides columns containing general information, such as: calendar, meeting report, bookstore, etc. [Read more](#) 

Select Science

SelectScience® has transformed global scientific communications and digital marketing. It informs scientists about the best products and applications, connects manufacturers with their customers to develop, promote, and sell technologies, and promotes scientists and their work. This accelerates the communication of successful science. Scientists can make better decisions using independent expert information and easily access manufacturers. SelectScience® informs the global scientific community through editorial, feature, video, and webinar programs. [Read more](#)

Spectroscopy

With the *Spectroscopy* journal, scientists, technicians, and lab managers gain proficiency through unbiased, peer-reviewed technical articles, trusted troubleshooting advice, and best-practice application solutions. **Article:** *The C=O Bond: Esters and the Rule of Three*. By Brian C. Smith. All esters exhibit three intense peaks and hence follow what I like to call the Rule of Three. The spectra of saturated and aromatic esters will be examined over the next two columns. [Read more](#)
